Overcomers in 2021 (Part 2)

Here are illustrations of the battles that believers must overcome and for which rewards are promised for overcoming. "But this is a long way from saying that all Christians live ultimately victorious lives. In fact, that is something the New Testament does NOT say. Many use **1 John 5:4-5** to interpret that the overcomer promises of **Revelation 2 and 3** are the same because of the similarity of terms. Overcoming and the promises of these passages find their root in the Lord's statement in **John 16:33**, "These things I have spoken to you, that in Me you may have peace. In the world, you have tribulation, but take courage; I have overcome the world." The Christian life is full of conflict, tribulation, but victory awaits all believers through the victory accomplished by the Savior, but it is a victory that must be appropriated by an active faith that is fed through fellowship with the Lord. While all believers have overcome the world in the sense of **1 John 5**, conflicts and trials come to the believer in a variety of different shapes and degrees. When we turn to **Revelation 2 and 3**, we find each church with its own particular conflict and problems with specific rewards that are in keeping with or somehow related to the problem faced.

Prayer Request

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“Local Doctor Weighs in on New COVID-19 Virus Strain Found in Florida”

Submitted by: Beatrice Ramsey

TALLAHASSEE, FL (WCTV) - A new wrinkle in the fight against COVID-19 has appeared: a more-contagious variant of the virus has been found in Florida. So, what does that mean for you at home? Medical experts say this variant originated overseas, but it's quickly spreading across the globe. WCTV's Dr. Christie Alexander said she wasn't surprised to learn this mutation had made its way here to Florida given what's she heard about its transmissibility. Thursday, December 31, health officials in Martin County confirmed this UK-originated variant had been detected in a COVID-19 positive patient. Dr. Alexander says the virus isn't proving to be more lethal than what we've seen, but that it is another wakeup call to keep wearing masks, avoid large gatherings and social distance. She also said medical experts expected to see this difficult virus mutate during this pandemic. “Mutations with viruses occur all the time, we see that with the general common cold all the way to the flu virus, it's very common for viruses to mutate. We just hadn't see one that was a functional mutation as of now,” Dr. Alexander said. One piece of good news early on here is that experts think the COVID-19 vaccine will still provide protection against this new variant. Dr. Alexander says the biggest concern is the speed of transmission possibly overwhelming hospitals, so we'll keep a close eye on what happens.
