Overcomers in 2021 (Part 4)

An investigation of the promises in **Revelation 2 and 3** will seek to show that these are not promises all believers experience because every believer is an overcomer, but that these promises are special rewards to believers who overcome specific conflicts in the Christian's life through faith and obedience in their daily walk.

From time to time, everyone struggles to overcome bad habits and addictions. As we go into 2021, Liberty City, my prayer is that we leave 2020 and all of its ills behind and began afresh by overcoming in Jesus some of the bad habits and addictions that plagued us and held us back from Spiritual Soundness and Strength. Hopefully, this will help us remember some helpful hints, in addition to providing a resource for future reference. When it comes to Bad Habits and Addictions never forget: **It's Your Choice!** God has given us a free will. We choose whether to subject ourselves to bad habits and addictions (**Rom. 6:16-18**). **16** Know ye not, that to whom ye yield yourselves servants to obey, his servants ye are to whom ye obey; whether of sin unto death, or of obedience unto righteousness? **17** But God be thanked, that ye were the servants of sin, but ye have obeyed from the heart that form of doctrine which was delivered you.

Prayer Request

Confess *your* faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

HealthCare Ministry (Part 2)

“Things Blacks Should Know About COVID-19 Vaccination Program”

Submitted by: Beatrice Ramsey

Cost is not an obstacle to getting vaccinated against COVID-19.

Vaccine doses purchased with U.S. taxpayer dollars will be given to the American people at no cost. However, vaccination providers may be able to charge administration fees for giving the shot.

Vaccination providers can get this fee reimbursed by the patient's public or private insurance company or, for uninsured patients, by the Health Resources and Services Administration's Provider Relief Fund external icon.

The first COVID-19 vaccines are being used under Emergency Use Authorizations (EUA) from the U.S. Food and Drug Administration (FDA). Many other vaccines are still being developed and tested.

If more COVID-19 vaccines are authorized or approved by FDA, the Advisory Committee on Immunization Practices (ACIP) will quickly hold public meetings to review all available data about each vaccine and make recommendations for their use in the United States. All ACIP-recommended vaccines will be included in the U.S. COVID-19 Vaccination Program. CDC continues to work at all levels with partners, including healthcare associations, on a flexible COVID-19 vaccination program that can accommodate different vaccines and adapt to different scenarios. State, tribal, local, and territorial health departments have developed distribution plans to make sure all recommended vaccines are available.
