Vol. 6

Issue 6

Senior Minister, Evangelist Eric W. Doss

MISSION: "To proclaim and teach the message of Jesus Christ, live for God, love one another and minister faithfully to people."

MEMORY VERSES: "God is our refuge and strength, a very present help in trouble." **Psalms 46:1**
"Humble yourselves therefore under the mighty hand of God, that He may exalt you in due time: Casting all your care upon Him; for He careth for you." **1 Peter 5:6 & 7**

MOTTO: GOD LOVES YOU AND WE LOVE YOU TOO!

THEME: EACH ONE, SEEK ONE ★ EACH ONE, REACH ONE ★ GOD KEEP US ALL!

Grown and Evangelizing (Part 8)

Submitted by: Eric W. Doss

2. Boldness is a result of watching and partnering with other bold witnesses.

Their lives and examples challenge us and encourage us to become bolder in our witness for Christ.

Application Question: Who has inspired you the most to grow in your spiritual life and to become a mature witness for Christ?

A Mature Witness Encourages Others to Share Their Faith Because of my chains, most of the brothers in the Lord have been encouraged to speak the word of God more courageously and fearlessly. (**Philippians 1:14**)

As mentioned previously, the Christians in Rome were encouraged to speak the Word of God fearlessly because of Paul's chains. Paul said the things that happened to him worked out for the advancement of the gospel, and Christians becoming encouraged to spread the gospel was one of the ways God worked it out (**v. 12**).

Again, the word "advancement" Paul used is a military term for an army going ahead to prepare the way to enter into new territory. Paul's imprisonment in Rome was used to make a military advancement into the kingdom of darkness. There, he not only preached the gospel but made a way for others to preach it. He cleared the path like a pioneer.

Prayer Request

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“COVID-19 symptoms and the Omicron variant: What the latest studies show” (Pt.2)

Submitted by: Beatrice Ramsey

The incubation period — the time from infection to symptoms appearing — was as short as three days. That’s several days faster than previous strains of the virus.

Dr. Angelique Coetzee, chair of the South African Medical Association, echoed Whelan’s observations about Omicron patients.

“The few that progressed to pneumonia only started around day 10-12 with shortness of breath, feverish feeling, and a slight cough,” said Coetzee.

Most mild Omicron cases over the course of the wave in South Africa had presented with a headache, chest pain or backache, a “slight scratchy throat or dry cough and a tiredness,” Coetzee recounted.

South Africa’s National Institute for Communicable Diseases warned residents late last month to watch for those kinds of upper respiratory symptoms, and noted that one distinctive symptom seen in cases of earlier COVID variants — loss of taste and smell — “seems to be uncommon” with Omicron.
