Overcomers in 2021 (Part 8)

Exercise Self-Control

Like an athlete, we must exercise self-control in all things. If we do, we'll control our minds, which controls our bodies, and overcome bad habits and addictions.

Walk By The Spirit

Walking by the Spirit will greatly help us avoid and overcome bad habits and addictions. The fruit of the Spirit is love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, and self-control (**Gal. 5:22**). Since we walk by the Spirit, we exercise with God's help, control over sin, bad habits, and addictions.

We walk by the Spirit because we belong to Christ, having crucified the flesh with its passions and desires (**Gal. 5:24**). We don't engage in bad habits and addictions because Christ doesn't engage in sin. We've been crucified with Christ, who lives in us; and the life which we now live in the flesh we live by faith in the Son of God, who loved us and gave Himself up for us (**Gal. 2:20**).

Prayer Request

Confess *your* faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“What is Thrombocytopenia? Rare Blood Disorder Reported”
After COVID Vaccines

Submitted by: Beatrice Ramsey

Over two dozen cases of the rare blood disorder thrombocytopenia have been reported in people who have received COVID vaccines in the U.S. However, a link between COVID vaccines and the disease that affects platelets has not been proven.

The Vaccine Adverse Event Reporting System (VAERS), which is jointly run by the U.S. Centers for Disease Control and Prevention and the U.S. Food and Drug Administration, is recording any potential side-effects experienced by people after they receive a vaccine.

By the end of January, 32 cases of a decreased platelet count, 14 cases of thrombocytopenia, and 11 cases of immune thrombocytopenia were reported in people who has received either Pfizer or Moderna COVID vaccines in the U.S. More than 43 million vaccine doses have been administered in the U.S.

Last month, a man in Florida died after developing thrombocytopenia days after getting vaccinated against COVID. 56-year-old Miami-based doctor Gregory Michael started displaying the symptoms of a form of the disorder called idiopathic thrombocytopenic purpura (ITP) days after receiving the Pfizer-BioNTech vaccine. He died two weeks later from a brain hemorrhage. Newsweek has contacted Pfizer and Moderna for comments.

ALL SERVICES AT THE BUILDING HAVE BEEN SUSPENDED UNTIL FURTHER NOTICE

Weekly Contributions & Communion

WE WILL GLADLY ACCEPT YOUR WEEKLY CONTRIBUTIONS:

1. ONLINE AT www.lcccmiami.org (PayPal).
2. MAIL YOUR CONTRIBUTIONS TO LIBERTY CITY CHURCH OF CHRIST, P. O. BOX 680308, MIAMI, FL 33168
