Vol. 5

Issue 9

Senior Minister, Evangelist Eric W. Doss

HAPPY BIRTHDAY!

Bro. Eric Doss

MISSION: "To proclaim and teach the message of Jesus Christ, live for God, love one another and minister faithfully to people."

MEMORY VERSES: "God is our refuge and strength, a very present help in trouble." **Psalms 46:1**

"Humble yourselves therefore under the mighty hand of God, that He may exalt you in due time: Casting all your care upon Him; for He careth for you." **1 Peter 5:6 & 7**

MOTTO: GOD LOVES YOU AND WE LOVE YOU TOO!

THEME: EACH ONE, SEEK ONE ★ EACH ONE, REACH ONE ★ GOD KEEP US ALL!

Overcomers in 2021 (Part 9)

The Power of God in Our Lives

Walking by the Spirit, God's empowers us to avoid and overcome bad habits and addictions.

We're empowered by God's word and prayer.

- **Rom. 1:16** "For I am not ashamed of the gospel, for it is the power of God for salvation to everyone who believes. . . ."
- **1 Th. 2:13** ". . . the word of God, which also performs its work in you who believe."
- **1 Pet. 3:12** "For the eyes of the Lord are toward the righteous, and His ears attend to their prayer, but the face of the Lord is against those who do evil."

You can break a bad habit with God's Help. A habit is a regular practice, wired deep into our brains, often hard to give up. Habits can be good (like exercise, healthy eating, and regular Bible-reading) or bad (think of unhealthy tendencies that make us feel stuck).

Whether it's the bad habit of turning to the cupboard for satisfaction, falling into a trance in front of the television, or a deeper, more shameful habit that we dare not mention in the circle at the weekly Bible study, most of us could stand to break at least a habit or two.

Prayer Request

Confess *your* faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

HealthCare Ministry "What is Thrombocytopenia?"

Submitted by: **Beatrice Ramsey**

What is thrombocytopenia?

Thrombocytopenia is a rare disorder that lowers the number of platelets in your blood. Platelets, which are also known as thrombocytes, are cells that are essential for making blood clot, a process that stops you from continually bleeding from the site if an injury.

According to the Platelet Disorder Support Association (PDSA), around 100,000 people in the U.S. have the condition.

What Causes thrombocytopenia?

Thrombocytopenia can run in families. However, it can also be triggered as an immune response to infection, disease, or medication. In this instance the condition is known as immune thrombocytopenia, or idiopathic thrombocytopenic purpura (ITP). ITP causes white blood cells, which create antibodies that fight infection, to instead attack your body's own platelets.

What are Symptoms of thrombocytopenia?

Symptoms of thrombocytopenia include bruising above areas of bleeding under the skin, flat red spots, and the presence of blood in your stool or urine. However, these symptoms may only appear when your platelet count has fallen to dangerously low levels.
