

March 12, 2023 Vol. 10  
Senior Minister, Evangelist Eric W. Doss

**MISSION:** "To proclaim and teach the message of Jesus Christ, live for God, love one another and minister faithfully to people."

**MEMORY VERSES:** "God is our refuge and strength, a very present help in trouble." **Psalms 46:1**  
"Humble yourselves therefore under the mighty hand of God, that He may exalt you in due time: Casting all your care upon Him; for He careth for you." **1 Peter 5:6 & 7**

**MOTTO:** GOD LOVES YOU AND WE LOVE YOU TOO!

**March Focus THEME:** Christian Education

### From the Minister's Desk

To our distinguished visitors:

We are honored to have you worship with us! We'd love to get to know you better, share our mission and vision as a church and explore how you can become a part of our family.

If you, any member of your family or friends you know of are interested in becoming a member of the Liberty City Church of Christ, please contact any member of the Liberty City Church of Christ and they will direct your request to our Evangelism Ministry Leaders or you may call our Evangelist directly, Eric W. Doss (813) 451-0121.

We are regular people from all walks of life. We are imperfect. We have strengths and weaknesses. But we love a perfect God, who sent the greatest example, Jesus Christ, and we want to spend eternity with Him.

We hope you will join us on this journey.

## Guillain – Barre Syndrome

Submitted by: **Beatrice Ramsey**

*Guillain – Barre Syndrome: a rare, rapidly progressive disease occurring when the body's immune system mistakenly attacks the nerves. Similar to Multiple Sclerosis ( Central Nervous System ), affecting the nerves myelin of the brain and spinal cord. Today our study will take us in a different direction, involving the nerves in the lower part of the body -- ( Peripheral Nervous System ). Guillain – Barre Syndrome cause muscle weakness and loss of sensation, sometimes progress to complete paralysis. The exact cause is unknown. According to strong evidence, about half the people with this disease, had a digestive ( virus ) or respiratory ( COVID \_ 19 ) illness several days before the start of this disease. Guillain – Barre Syndrome is a serious condition that requires immediate hospitalization, because it can worsen rapidly. The sooner appropriate treatment is started, the better the chance of a good outcome.*

*There are several treatments that can decrease symptoms and reduce the duration of the illness. Although most people recover completely from GBS, some severe cases can be fatal. While recovery may take up to several years, most people are able to walk again six months after symptoms first started. Some people may have lasting effects from it, such as weakness, numbness or fatigue ( feeling overtired with low energy ).*

*Call your doctor if you have tingling that started in your feet or toes and is now moving up your body or weakness that's spreading rapidly. Also if you have difficult breathing when lying flat and choking on your saliva. These are severe symptoms that require emergency medical help. Guillain – Barre Syndrome affects your nerves. Because nerves control your movements and body functions, people with GBS may experience the risk of serious long – term complications. A small percentage of people with GBS have a relapse, experiencing muscle weakness even years after the symptoms ended.*
