

March 26, 2023 Vol. 13  
Senior Minister, Evangelist Eric W. Doss

**MISSION:** "To proclaim and teach the message of Jesus Christ, live for God, love one another and minister faithfully to people."

**MEMORY VERSES:** "God is our refuge and strength, a very present help in trouble." **Psalms 46:1**  
"Humble yourselves therefore under the mighty hand of God, that He may exalt you in due time: Casting all your care upon Him; for He careth for you." **1 Peter 5:6 & 7**

**MOTTO:** GOD LOVES YOU AND WE LOVE YOU TOO!

**March Focus THEME:** Christian Education

**From the Minister's Desk**

To our distinguished visitors:

We are honored to have you worship with us! We'd love to get to know you better, share our mission and vision as a church and explore how you can become a part of our family.

If you, any member of your family or friends you know of are interested in becoming a member of the Liberty City Church of Christ, please contact any member of the Liberty City Church of Christ and they will direct your request to our Evangelism Ministry Leaders or you may call our Evangelist directly, Eric W. Doss (813) 451-0121.

We are regular people from all walks of life. We are imperfect. We have strengths and weaknesses. But we love a perfect God, who sent the greatest example, Jesus Christ, and we want to spend eternity with Him.

We hope you will join us on this journey.

*Our thoughts and prayers are with those in their times of mourning.*

**Diabetes and Women**

Submitted by: **Beatrice Ramsey**

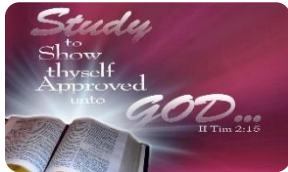

There is a difference between women with diabetes and men with diabetes. This condition can often have more serious effects on women when compared to men. Diabetes increases the risk of heart disease about four times in women and about two times in men. However women have the worse outcome after a heart attack. Women are also at a higher risk of other diabetes – related complications such as blindness, kidney disease and depression. Not only is diabetes different for women, it's different among women. African American, Hispanic, American Indian and Asian women are more likely to have diabetes than white women.

**Yeast and Urinary Tract Infections**

Many women will get a vaginal yeast infection at some point, but women with diabetes are at higher risk especially if their blood sugar levels are high. Yeast infections can happen if your immune system is weak and prolong antibiotics administration will cause an overgrowth of yeast. More than 50% of women will get a urinary tract infection, in their lifetime and your risk may be higher if you have diabetes. Causes include high blood sugar levels, poor circulation reducing your body's ability to fight infection. Also some women have bladders that don't empty all the way because of diabetes, creating a perfect environment for bacteria to grow. E. Coli bacteria, which lives in our bowels can cause most UTI from ineffective cleaning, during your body's elimination. Cleaning from the back to the front instead of cleaning from the front to the back. To prevent yeast infections and UTIs, keep your blood sugar levels as close to your target range as possible. Other ways to prevent UTIs: drink lots of water, wear cotton underwear, and urinate when the urge occurs instead of waiting until your bladder is full and begin to overflow.
