## Grown and Evangelizing (Part 16)

Submitted by: Eric W. Doss

**Observation Question:** How did Paul respond to these attacks from the brethren, and what can we learn from his response?

Not only should we learn to expect attacks as we consider what Paul endured, but we also should learn how to respond to attacks. When it came to false teachers attacking God and the church, Paul was fierce. He was like a lion. Look at what he said to the Galatians:

"But even if we or an angel from heaven should preach a gospel other than the one we preached to you, let him be eternally condemned! As we have already said, so now I say again: If anybody is preaching to you a gospel other than what you accepted, let him be eternally condemned!" (**Galatians 1:8-9**)

## HealthCare Ministry Reducing COVID’s Toll (Part 1)

Submitted by: Beatrice Ramsey

The BA.2 subvariant — an even more contagious version of Omicron — has already caused Covid-19 cases to rise across much of Europe. In the U.S., caseloads have held steady over the past week, [ending two months of sharp declines](#), and many experts expect increases soon.

Newsletter looks at four promising strategies for minimizing Covid’s toll in the coming months.

### 1. More boosters

Dr. Aaron Richterman, an infectious-disease specialist in Philadelphia, regularly sees patients who have been vaccinated against Covid but have not received a booster shot. Some are not aware they are eligible for a booster. Others have heard about boosters but are not interested. “I just feel like I don’t need it,” one patient — an older man — recently told Richterman.

That attitude is common. Almost one-quarter of U.S. adults have been vaccinated but have not received a booster shot, according to Kaiser Family Foundation surveys. (Any American who was vaccinated more than six months ago is eligible.)
