### Caring for Our Elderly Saints (Part 5)

Most families find themselves unprepared to handle their parents' increased dependency.

Still, with the increase in number of older adults comes the increase of adult children caring for their parents. More than 20 million in the U.S. alone provide care for an aging parent or in-law. What's more, families rather than institutions provide 80 percent of long-term care. So how can adult children, siblings and parents deal with the inevitable challenges that accompany this life transition?

Begin by openly discussing each person's role and responsibilities within the family structure. While caregiving can be extremely stressful, sharing duties is a guaranteed way to ease the tension. Whatever distance family members live from one another, devise a care plan so everyone can be involved.

Addressing the sensitive topic of finances is also a must, as is compiling important personal and financial documents. Finally, take the time to evaluate how to build unity among siblings—in spite of the high potential for tension.

There's no question that many caregivers only find frustration and exhaustion. But with solid support and communication, caring for an aging parent can bring a renewed sense of love, compassion and tenderness into any family.

## Prayer Request

Confess *your* faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

What are the Treatment Options for COVID-19? (Part 4)

Submitted by: Beatrice Ramsey

#### How can I access the vaccine?

**Dr. Okun:** In the U.S., the vaccine is being distributed to each of the 50 states, and each state has a different process for distribution. In most states, the vaccine is currently being administered to frontline healthcare workers, and eventually it will be distributed by age and priority levels. We wrote a recent blog article on access to the COVID-19 vaccine. Tips to access the vaccine include:

- Check in with your local health department. Some have a sign-up list so that you can access appointments online or by calling.
- Check in with your primary doctor and let him/her know you want the vaccine.
- Call nearby hospitals and ask them about their distribution plan and whether you can receive it there.
- Don't wait in line for hours or camp out without social distancing. Ideally, get an appointment.
