Grown and Evangelizing (Part 22)

Submitted by: Eric W. Doss

Application Question: Why does God use and often bless those serving in ministry even though they have wrong hearts?

Many times the ministries of those who are corrupt and ungodly will excel, and the primary reason is because God is faithful to his Word. He will not let it return void. That was no doubt true of the people attacking Paul.

However, the best ministers—mature witnesses—serve out of a selfless, loving heart. Listen to what Paul said about the majority of the believers who were emboldened to witness and share the gospel: "The latter do so in love, knowing that I am put here for the defense of the gospel" (**Philippians 1:16**).

Similarly, when Paul talked about his motivation for sharing the Word of God with others, he said this in **2 Corinthians 5:14**: "For Christ's love compels us, because we are convinced that one died for all, and therefore all died."

He said that he was compelled by love. He proclaimed the Word of God, suffered, and wrote letters to encourage churches all because he loved God and loved people.

What is the real reason we don't evangelize? It is not because of fear—it is because of a lack of love. I don't love others as I should, and therefore, I don't witness as I should.

Prayer Request

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

Reducing COVID’s Toll (Part 6)

Submitted by: Beatrice Ramsey

4. Masks

Broad mask mandates have not done much to prevent Omicron’s spread. Too many people wear low-quality masks or take them off at times, and Omicron is so contagious that it takes advantage of these gaps.

But masks can still help reduce Covid’s spread

- They are especially helpful in hospitals and nursing homes, where high-quality masks can be required and where many people are vulnerable.
- Masks also make sense for people who have returned to work or school five to 10 days after a Covid infection, Dr. Shira Doron of Tufts Medical Center says.

Anybody who is personally anxious about Covid, for any reason, can wear a mask, too, Dr. Tom Frieden, a former C.D.C. director, notes. A high-quality mask will protect the wearer even if others nearby are maskless.
