Grown and Evangelizing (Part 23)

Submitted by: Eric W. Doss

Application Question: Why does God use and often bless those serving in ministry even though they have wrong hearts?

What is the real reason we don't evangelize? It is not because of fear—it is because of a lack of love. I don't love others as I should, and therefore, I don't witness as I should.

Paul said that love compelled him. The Christians throughout the Roman Empire who were sharing the gospel felt compelled by love—love for God, love for others, and love for Paul. Love compelled them to preach and proclaim the gospel.

Love is the only true motivation to do gospel ministry, and it is the only motivation that will be rewarded by God. Paul said this about his ministry:

If I speak in the tongues of men and of angels, but have not love, I am only a resounding gong or a clanging cymbal. If I have the gift of prophecy and can fathom all mysteries and all knowledge, and if I have a faith that can move mountains, but have not love, I am nothing. If I give all I possess to the poor and surrender my body to the flames, but have not love, I gain nothing. ([1 Corinthians 13:1-3](#))

He said that nothing he did for others or God mattered if it didn't come from love. Mature witnesses serve others out of love. Love means that it is not about me.

Prayer Request

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“Bust Common Myths and Learn Facts” (Part 1)

Submitted by: Beatrice Ramsey

1. MYTH: The ingredients in COVID-19 vaccines are dangerous.

FACT: Nearly all the ingredients in COVID-19 vaccines are also ingredients in many foods – fats, sugars, and salts.

Exact vaccine ingredients vary by manufacturer. Pfizer-BioNTech and Moderna COVID-19 vaccines also contain messenger RNA (mRNA) and the Johnson & Johnson/Janssen COVID-19 vaccine contains a harmless version of a virus unrelated to the virus that causes COVID-19. These give instructions to cells in your body to create an immune response. This response helps protect you from getting sick with COVID-19 in the future. After the body produces an immune response, it discards all the vaccine ingredients just as it would discard any information that cells no longer need. This process is a part of normal body functioning.

COVID-19 vaccines do NOT contain ingredients like preservatives, tissues (like aborted fetal cells), antibiotics, food proteins, medicines, latex, or metals. Learn more about what ingredients are and are not in Pfizer-BioNTech, Moderna, or Johnson & Johnson/Janssen COVID-19 vaccines.

2. MYTH: The natural immunity I get from being sick with COVID-19 is better than the immunity I get from COVID-19 vaccination.

FACT: Getting a COVID-19 vaccination is a safer and more dependable way to build immunity to COVID-19 than getting sick with COVID-19.
