### Why Does God Allow Good People to Suffer? (Part 13)

*In times of suffering, the righteous are comforted by their fellowship with God, and this intimacy lasts for all eternity:*

**16** When I pondered to understand this, it was troublesome in my sight **17** Until I came into the sanctuary of God; *Then* I perceived their end. **18** Surely, Thou dost set them in slippery places; Thou dost cast them down to destruction. **19** How they are destroyed in a moment! They are utterly swept away by sudden terrors! **20** Like a dream when one awakes, Lord, when aroused, Thou wilt despise their form. **21** When my heart was embittered, And I was pierced within, **22** Then I was senseless and ignorant; I was *like* a beast before Thee. **23** Nevertheless I am continually with Thee; Thou hast taken hold of my right hand. **24** With Thy counsel Thou wilt guide me, And afterward receive me to glory. **25** Whom have I in heaven *but* Thee? And besides Thee, I desire nothing on earth. **26** My flesh and my heart may fail, But God is the strength of my heart and my portion forever. **27** For, behold, those who are far from Thee will perish; Thou hast destroyed all those who are unfaithful to Thee. **28** But as for me, the nearness of God is my good; I have made the Lord GOD my refuge, That I may tell of all Thy works (**Psalm 73:16-28**).

Those who experience the *sufficiency* of God in times of suffering do not resent their affliction but treasure it as God's appointed means of drawing men close to Him, the "Father of mercies."

## HealthCare Ministry (Part 1)

Study Ties Blood Type to COVID-19 Risk:  
Blood Type “O” May Help, Blood Type “A” Hurt

Submitted by: Beatrice Ramsey

A genetic analysis of COVID-19 patients suggests that the blood type might influence whether someone develops severe disease. Scientists who compared the genes of thousands of patients in Europe found that those who has Type A blood were more likely to have severe disease while those with Type O were less likely. A report in the New England Journal of Medicine does not prove a blood type connection, but it does confirm a previous report from China of such a link. “Most of us discounted it because it was a very crude study,” Dr. Parameswar Hari, a blood specialist at the Medical College of Wisconsin, said of the report from China. **With the new work, “now I believe it,” he said. “It could be very important.”**
