

July 9, 2023 Vol. 28
Senior Minister, Evangelist Eric W. Doss

MISSION: "To proclaim and teach the message of Jesus Christ, live for God, love one another and minister faithfully to people."

MEMORY VERSES: "God is our refuge and strength, a very present help in trouble." **Psalms 46:1**
"Humble yourselves therefore under the mighty hand of God, that He may exalt you in due time: Casting all your care upon Him; for He careth for you." **1 Peter 5:6 & 7**

MOTTO: GOD LOVES YOU AND WE LOVE YOU TOO!

July's Monthly Theme: Family Matters

From the Minister's Desk

To our distinguished visitors:

We are honored to have you worship with us! We'd love to get to know you better, share our mission and vision as a church and explore how you can become a part of our family.

If you, any member of your family or friends you know of are interested in becoming a member of the Liberty City Church of Christ, please contact any member of the Liberty City Church of Christ and they will direct your request to our Evangelism Ministry Leaders or you may call our Evangelist directly, Eric W. Doss (813) 451-0121.

We are regular people from all walks of life. We are imperfect. We have strengths and weaknesses. But we love a perfect God, who sent the greatest example, Jesus Christ, and we want to spend eternity with Him.

We hope you will join us on this journey.

Mittie D. Fowler

Love gives us memories. Faith gives us strength. Our hearts and prayers are with our bereaved sisters and brothers in Christ. Praying for peace and comfort to everyone impacted by loss. Our deepest heart-felt sympathy

Praying for the family of James B Collier, an uncle to the Collier and Manning (Chad).

Heat Stroke

Submitted by: Beatrice Ramsey

Heat stroke is the most serious heat – related illness. It occurs when the body becomes unable to control a normal temperate, rapidly rising to 104 degree or higher within 10 – 15 minutes. The body normally cools itself by sweating but under some conditions, sweating isn't enough. When the humidity is high sweat will not evaporate as quickly, preventing the body from releasing heat quickly. Heat stroke requires emergency treatment. Untreated heat stroke can quickly damage your brain, heart, kidney, and muscles. The damage worsens the longer treatment is delayed, increasing your risk of serious complications such as permanent disability or death.

SYMPTOMS: Altered mental behavior (confusion, agitation, slurred speech). Alteration in sweating (heat stroke brought on by hot weather, your skin will feel hot and dry to touch. (Heat stroke brought on by strenuous exercise, your skin may feel dry or slightly moist). Nausea, feeling sick to your stomach or vomit. Flushed skin turns red as your body temperature increases. Your breathing may become rapid and shallow. Your heart rate may significantly increase because of heat stress, causing a tremendous burden on your heart to help cool your body. Headaches may occur due to sudden changes in the normal healthy body status. Heat Stroke can also occur when a person is wearing excess clothing that prevents sweat from evaporating easily and cooling your body. Drinking alcohol can affect your body's ability to regulate your temperature. Becoming dehydrated by not drinking enough water to replenish fluids lost through sweating. **RISK FACTORS:** people 65 and older, per-existing illnesses, medications such diuretics, antidepressants, and blood pressure regulators. Also illegal stimulants such as cocaine can make you vulnerable to heat stroke. **TREATMENTS:** If you think a person may be experiencing heatstroke, call 911 for immediate emergency help. While waiting, move the person into a shaded area or indoors. Remove excess clothing, cool the person with whatever means available. Such as spray with a garden hose, sponge with cool water, fan while applying cool water, place icepacks or cold wet towels on the person's head, neck, and armpits. By all means **KEEP WELL HYDRATED** during the hot summer.
