Some Valuable Nuggets on Forgiveness Ephesians 4:32 (Part 11)

E. BIBLICAL FORGIVENESS IS FINAL.

You will benefit by forgiving others. You will get rid of your bitterness, which eats at your soul. You will enjoy restored relationships with others, along with many other blessings. But, the benefits for you are really the by-products of forgiveness. Your focus should not be on what's in it for you, but rather on glorifying God and loving others.

A. THE MOTIVE IN FORGIVING OTHERS SHOULD BE TO GLORIFY GOD, WHO HAS FORGIVEN YOU.

As we saw in Ephesians 1:7, the forgiveness of our sins is according to the riches of His grace, so that we will be to the praise of His glory (1:12). If someone sees how much you have forgiven someone else and praises you for it, be quick to divert the praise to God, who has forgiven you so much.

B. REMEMBER HOW AND HOW MUCH GOD HAS FORGIVEN YOU IN CHRIST.

As we have seen, He forgave you by grace alone. You didn't deserve anything but His judgment, but He still forgave you out of His great love. And He has forgiven you far more than you can ever forgive anyone else.

Prayer Request

Confess *your* faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“What Doctors Wish Patients Knew About the Johnson & Johnson Vaccine” (Part 9)

Submitted by: Beatrice Ramsey

Adenovirus vector vaccines aren't new

“Janssen's phase three clinical trial included more than 40,000 participants.

In addition, Janssen's viral vector platform is supported by an even larger body of evidence, including an Ebola vaccine that's already been tested in pregnant women and children and approved in Europe,” said Dr. Fryhofer. “More than 193,000 people—including patients of different ages and conditions—have been vaccinated with various investigational vaccines using this adenovirus platform.”

“The adenovirus vector vaccine uses a modified cold virus—an adenovirus called Ad26—as the viral vector and several genes have been removed from this virus,” she explained. “It's replication deficient, so it cannot multiply in the body.”

This means that “it cannot give someone COVID-19,” said Dr. Fryhofer. “The company says this safety sign imbalance—blood clots and low platelets—did not show up in the phase three trial or with their research on other Ad26 based viral vector vaccines.

“However, in the phase 3 trial, one patient, a 25-year-old male, did suffer CVST, had low platelets and also had PF4 antibodies,” she added.

PLEASE REMEMBER

1. Stay home if possible
2. Wear a mask
3. Practice social distancing
4. Wash your hands often with soap and water for 15-20 seconds
