Some Valuable Nuggets on Forgiveness Ephesians 4:32 (Part 12)

B. REMEMBER HOW AND HOW MUCH GOD HAS FORGIVEN YOU IN CHRIST.

As we have seen, He forgave you by grace alone. You didn't deserve anything but His judgment, but He still forgave you out of His great love. And He has forgiven you far more than you can ever forgive anyone else.

God forgives truly! His forgiveness means that He tosses it in the depths of the sea. Having been forgiven that much, He commands us to forgive others for their lesser sins against us (Matt. 18:21-35).

C. REMEMBER THAT GOD IS THE SOVEREIGN OVER ALL THAT HAPPENS AND HE IS THE RIGHTEOUS JUDGE OF ALL.

When someone wrongs you, it helps to control your anger, root out bitterness, and make you ready to forgive if you remember that God has allowed this to happen for His purpose and your ultimate good (Rom. 8:28). When Joseph's brothers sold him into slavery, he could have become a very bitter young man. Instead, he chose to forgive his brothers. After their father died, they feared that now he would use his position of power to get revenge.

Prayer Request

Confess *your* faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“What Doctors Wish Patients Knew About the Johnson & Johnson Vaccine” (Part 10)

Submitted by: Beatrice Ramsey

Expect the same side effects

Aside from the extremely rare blood clots discussed above, “the side effects for the J&J vaccine are very similar to those for the mRNA vaccines, including injection-site pain, headache, fatigue, fever, chills and muscle aches,” said Dr. Fryhofer.

With most of the side effects occurring within one to two days following vaccination, Dr. Fryhofer recommends choosing a day or two when “you don’t have a lot of important stuff going on, because you might not feel well.”

Learn more from the AMA about what doctors wish patients knew about COVID-19 vaccination.

There is easier access

Since the J&J vaccine doesn’t require colder temperatures for storage as the Moderna and Pfizer vaccines do, “it’s more mobile, so it’s perfect for people who are homebound, that can’t—or won’t—go to a second appointment,” said Dr. Fryhofer. “It’s also good for people who move around a lot.”

“As I’ve talked to other physicians about this vaccine, one physician who provides health care for those in jails and prisons said,
