Some Valuable Nuggets on Forgiveness Ephesians 4:32 (Part 13)

C. REMEMBER THAT GOD IS THE SOVEREIGN OVER ALL THAT HAPPENS AND HE IS THE RIGHTEOUS JUDGE OF ALL.

Joseph acknowledged God's sovereignty and goodness when he said to them (Gen. 50:19-20), "Do not be afraid, for am I in God's place? As for you, you meant evil against me, but God meant it for good in order to bring about this present result, to preserve many people alive." By the way, it is blasphemous to say that we must sometimes forgive God. We only must forgive those who wrong us, and the Judge of the earth always does what is right!

Also, while we should not wish for or pray for God to judge our enemies, but rather to save them, we can take comfort in the fact that if they do not repent, they will face God's justice someday (1 Pet. 4:17-19; Rev. 18:20; 19:1-3). Vengeance belongs to the Lord and He will repay; so we are free to forgive (Rom. 12:19).

D. HAVE COMPASSION ON THE OTHER PERSON AS A FELLOW SINNER NEEDING GOD'S GRACE.

Paul tells us to be kind and tenderhearted toward those who wrong us, rather than bitter and angry.

Prayer Request

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“Update on COVID and the Delta Variant” (Part 1)

Submitted by: Beatrice Ramsey

‘If you’re not vaccinated ...’

It’s time for updates on the state of the pandemic. The brief version: The situation continues to look reassuring for anybody who is vaccinated — but has become more worrisome for anybody who is not, largely because of the Delta variant.

Here are three more detailed points:

1. **Cases are no longer falling**

The news about Covid-19 has been mostly positive in the U.S. over recent months. The vaccines continue to work well against every variant, and the number of Americans who have gotten a shot continues to rise.

But the U.S. still faces two problems. First, the pace of vaccinations has slowed, and a substantial share of Americans — close to one third — remains hesitant about getting a shot. These unvaccinated Americans will remain vulnerable to Covid outbreaks and to serious symptoms, or even death.

Second, the Delta variant — which appears to be both more contagious and more severe than earlier versions of the virus — is spreading rapidly within the U.S., after having first been identified in India.
