Some Valuable Nuggets on Forgiveness Ephesians 4:32 (Part 15)

D. HAVE COMPASSION ON THE OTHER PERSON AS A FELLOW SINNER NEEDING GOD'S GRACE.

Jesus said that if you do not forgive others, the heavenly Father will not forgive you (**Matt. 6:15; Mark 11:25**). Scholars are divided over whether that refers to being under God's eternal judgment or to your relationship with the Father as His child. I favor the second option. But either way, you don't want to miss out on the Father's forgiveness! Jesus said that forgiving others is so important that if you are worshiping God when you remember that your brother has something against you, you should first go be reconciled to your brother and then come back to worship God (**Matt. 5:23-24**). So, it is vital for you as a Christian to grapple with understanding and practicing forgiveness. Since many books have been written on this topic, I can only touch on some of the issues.

In the context, Paul is showing specific ways that we are to put on the new man, "which in the likeness of God has been created in righteousness and holiness of the truth" (**4:24**). We are to put away all bitterness, wrath, anger, clamor, and slander (**4:31**). We are to replace these sins with kindness, tenderheartedness, and forgiveness, just as God in Christ also has forgiven you (**4:32**).

Prayer Request

Confess *your* faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“Update on COVID”- (Part 3)

Submitted by: Beatrice Ramsey

While the COVID-19 vaccines are highly effective at preventing serious illness, no vaccine is 100% effective at preventing infection.

Breakthrough cases are expected. With delta, we’re seeing more breakthrough cases than we have with previous variants. Breakthrough infections are more common in indoor settings with large groups of people, the elderly and in individuals with compromised immune systems.

Please get vaccinated, if you haven’t

The vaccines work. They reduce your risk of severe disease and death by 10 times — even with the delta variant. Getting fully vaccinated is still your best chance to avoid being hospitalized with a COVID-19 infection. We strongly encourage you to schedule vaccines for those eligible in your household if they’re unvaccinated.

At various sites, those who are 12 years and older can get the vaccine at their scheduled primary care appointments with their family medicine, internal medicine and general pediatrics providers. Additionally, you can schedule a COVID-19 vaccine appointment at one of our dedicated vaccine clinic locations. Please visit Florida vaccination site for more information about scheduling and locations near you.
