Why Does God Allow Good People to Suffer? (Part 22)

I dare not overlook the very likely possibility that you may be reading this message as an unbeliever. You may know about God. You may even believe in God and pray to Him at times. A true believer goes beyond this. A true believer is one who understands that he is a sinner, who deserves God's eternal wrath, and whose good works will never be sufficient to gain him or her entrance into the kingdom of God or to obtain God's favor (**Romans 3:9-20; 6:23; 1 John 1:8-10**). A true believer understands that while there is no way man can ever earn eternal salvation, there is but one way which God has provided whereby we can be saved, and that is by faith in the sacrificial death, burial, and resurrection of our Lord, by which our sins are punished in Christ, and God's righteousness in Christ is given to us (**John 1:12; 3:16, 36; 14:6; Romans 3:21-26; 10:9-10; 2 Corinthians 5:17-21; 1 John 5:11-12**).

The true believer knows these things and casts his entire trust on Jesus Christ for the forgiveness of his sins and the assurance of eternal life.

While it is not the point of our text in **2 Corinthians**, it is nonetheless true that, often by means of suffering, God draws the unbeliever to Himself. If any unbeliever who is suffering asks the question, "Why me?" the answer is simple: "We deserve it." We deserve none of God's blessings and the worst punishment we can imagine. But it is often true that God graciously brings suffering into the life of the non-Christian as a means of drawing him or her to faith in Christ.

Prayer Request

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“Are You Wearing Your Mask Correctly?”

Submitted by: Beatrice Ramsey

To help stop the spread of COVID-19, you need to put on your mask the right way and avoid making simple, yet consequential mistakes:

MISTAKE 1: Your face mask only covers your mouth.

If you are wearing your mask low so it only covers your mouth, you're doing it wrong, and you risk becoming ill or making someone else ill.

“We often breathe partially or completely through our nose, and you can [become infected] by breathing viral particles,” Russo said.

“Likewise, if you're infected and your mask is down just covering your mouth, if you sneeze ... then you can generate respiratory droplets in that fashion.”

If your nose is not covered by the mask, you also risk contamination from the mask itself, which collects germs and droplets on its exterior.

“If the nostrils are peeking out above the mask and the external edge of the mask is rubbing against the nostrils, cross-contamination could occur from the mask to the nose,” said Lucy Wilson, the chair of the department of emergency health services at the University of Maryland, Baltimore County.
