### In Search of Wisdom (Part 7)

From the Minister's Desk

#### The Pursuit of Wisdom

If God (or a messenger from God) approached you and offered to grant you one wish, what would it be? Your answer to this question is one of the most telling things about you; it illuminates your value system.

Instead of asking for a long life or wealth or power, Solomon pleased the Lord by requesting a discerning heart of wisdom:

At Gibeon the Lord appeared to Solomon during the night in a dream, and God said, "Ask for whatever you want me to give you."

Solomon answered, "You have shown great kindness to your servant, my father David, because he was faithful to you and righteous and upright in heart. You have continued this great kindness to him and have given him a son to sit on his throne this very day.

"Now, O Lord my God, you have made your servant king in place of my father David. But I am only a little child and do not know how to carry out my duties. Your servant is here among the people you have chosen, a great people, too numerous to count or number. So, give your servant a discerning heart to govern your people and to distinguish between right and wrong.

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“Omicron Symptoms and Treatment: What to Know”

Submitted by: Beatrice Ramsey

### 3. Immunity can account for some milder symptoms

“What’s different about omicron is that it has way more mutations in the spike protein than other variants,” Campbell said of the coronavirus’s entryway into the cells. “You’re going from 10 to 15 mutations in previous variants to over 30 mutations in omicron.”

Also, Johnson said, “most people in the U.S. already have some degree of partial immunity to SARS-CoV-2 based on vaccination, prior infection, or both. Consequently, symptoms may be modified because of this partial immunity, including lower-symptom severity.”

### 4. Basic medicine cabinet essentials can help

For those without any underlying health issues, treating omicron is primarily supportive, similar to previous variants.

Both Campbell and Johnson recommended using acetaminophen (Tylenol) when needed for symptoms that include headache, muscle aches or fever.

The Food and Drug Administration (FDA) has evaluated anti-inflammatory medications, such as ibuprofen (Advil) and naproxen (Aleve), Johnson said.
