

MISSION: "To proclaim and teach the message of Jesus Christ, live for God, love one another and minister faithfully to people."

MEMORY VERSES: "God is our refuge and strength, a very present help in trouble." **Psalms 46:1**
"Humble yourselves therefore under the mighty hand of God, that He may exalt you in due time: Casting all your care upon Him; for He careth for you." **1 Peter 5:6 & 7**

MOTTO: GOD LOVES YOU AND WE LOVE YOU TOO!

September's Monthly Theme: Fall-Ing in Love with Him

From the Minister's Desk

To our distinguished visitors:

We are honored to have you worship with us! We'd love to get to know you better, share our mission and vision as a church and explore how you can become a part of our family.

If you, any member of your family or friends you know of are interested in becoming a member of the Liberty City Church of Christ, please contact any member of the Liberty City Church of Christ and they will direct your request to our Evangelism Ministry Leaders or you may call our Evangelist directly, Eric W. Doss (813) 451-0121.

We are regular people from all walks of life. We are imperfect. We have strengths and weaknesses. But we love a perfect God, who sent the greatest example, Jesus Christ, and we want to spend eternity with Him.

We hope you will join us on this journey.

Fever --- Good VS Bad

Submitted by: Beatrice Ramsey

A fever occurs when the body's temperature rises above the individual's normal value. It is a good practice to know your normal temperature. Most adults' temperature varies between 97 to 99 degrees Fahrenheit. It can be influenced by age and during strenuous exercise causing a temporarily high rate of 104 F. Do you know your temperature changes during a day? You are coolest at night and warmest in the evening. **WHY YOU GET A FEVER:** Your body may raise its temperature to help you fight off an infection. When your body is hotter, it makes it harder for viruses or bacteria to survive. The fever also tells your immune system to make more white blood cells to join in the fight. **SO A FEVER MAY HELP PROTECT YOU, EVEN IF IT MAKES YOU FEEL WORSE FOR A LITTLE WHILE.**

HOW FEVER AFFECTS YOUR BODY: If you have a fever, you may feel hot and sweaty. Also you may shiver because you feel chilled. This is the body's reaction to raising a higher temperature, when fighting certain infections or diseases. A fever can be very unpleasant and may cause painful symptoms --- even when the cause is a relatively minor illness. Weakness, aches and tasteless food with a depressive behavior, is a high probability with a fever. If your temperature is 103 F or higher and the number doesn't drop after you take medicine to lower the number; notify your doctor. Other symptoms may occur such as ineffective fluid intake with decrease urination, severe headache, stiff neck, new skin rash and confusion. When this occur go to the emergency room. **HOW TO BRING DOWN A FEVER:** Over-the-counter medicines like Tylenol or Ibuprofen can ease a fever in adults and children older than 6 months. Cool yourself safely -- take a bath in cool or lukewarm water. ** People should avoid adding rubbing alcohol to their bathwater. Any prolonged exposure to rubbing alcohol, can cause the skin to absorb and lead to toxicity in both children and adults. Rubbing alcohol can create a cooling sensation on the skin, but it will not lower a person's elevated internal temperature. Cold compresses to the forehead and neck can also help

God has given us

Eyes, not to judge others but to look beyond situations,

Mouth, not to criticize but to speak for the truth,

Hands, not to punish but to give a helping hand,

Ears, not to be insensitive but to listen and aid those in pain.

Everything God gave us has its purpose. Use them for the greater glory of the Lord.
