In Search of Wisdom (Part 8)

From the Minister's Desk

The Pursuit of Wisdom

For who is able to govern this great people of yours?"

The Lord was pleased that Solomon had asked for this. So, God said to him, "Since you have asked for this and not for long life or wealth for yourself, nor have asked for the death of your enemies but for discernment in administering justice, I will do what you have asked. I will give you a wise and discerning heart, so that there will never have been anyone like you, nor will there ever be. Moreover, I will give you what you have not asked for – both riches and honor – so that in your lifetime you will have no equal among kings. And if you walk in my ways and obey my statutes and commands as David your father did, I will give you a long life." **1 Kings 3:5-14**

Because of his focus on wisdom above all other things, Solomon was also granted things he did not ask for. This is an illustration of the truth of Jesus' words concerning the one thing most needful for leaders today: "But seek first [God's] kingdom and his righteousness, and all these things will be given to you as well" (Matthew 6:33). When we pursue first things first, the second things are thrown in; when we pursue second things first, we not only miss out on the first things, but we also miss the fullness of the second things.

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“Omicron Symptoms and Treatment: What to Know”

Submitted by: Beatrice Ramsey

4. Basic medicine cabinet essentials can help

The Food and Drug Administration (FDA) has evaluated anti-inflammatory medications, such as ibuprofen (Advil) and naproxen (Aleve), Johnson said.

“At this time, there is no clear evidence that these are harmful, but I personally recommend acetaminophen for symptom management.”

For that runny or stuffy nose or cough, Campbell said over-the-counter nasal decongestants and cough syrup can help.

5. Staying hydrated can relieve some symptoms

Good hydration is important and can help all bodily functions, including preventing kidney problems during sickness and lessening feelings of weakness, malaise and dizziness, Johnson said.

Electrolyte drinks can help with hydration, but for most people, water and juice will suffice, Johnson said.

6. High-risk individuals should ask doctors about oxygen monitors

During the pandemic, some people have purchased oxygen monitors (pulse Johnson warned that people shouldn't rely solely on such devices.
