### "Reasons to Fall in Love with Him" (Part 1)

It is easy to get away from our responsibilities as children of God from time to time, but if we just fall in love with God, our task would be so much easier in our daily walk and relationship with God and one another.

We will investigate the attribute of love in God's make up and see why if we look closely at Him, we cannot help but love Him.

One of our greatest needs as human beings is to be loved. We all need love. We need to know that we are important to somebody; that somebody cares truly about us, wants us, and accepts us unconditionally. When we doubt that we are loved, we may develop unacceptable behavior patterns to compensate for it.

For example, we may act irresponsibly in a desperate attempt to get attention. Attention is a poor substitute for love, but it seems better than nothing at all. We may develop physical symptoms that bring us sympathy and concern. The symptoms cause us genuine pain, but the pain of sickness is more bearable than the pain of admitting that nobody cares.

We may angrily lash out at those whom we think should care or we may try to run away from them and hide, but in either case, we are trying to protect ourselves from the hurt they are causing us by their lack of concern. We all need to know that somebody loves us.

## Prayer Request

Confess *your* faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

#### “Are You Wearing Your Mask Correctly?”

Submitted by: Beatrice Ramsey

**MISTAKE 2: Your mask comes in contact with your body or your stuff. (continue)**

To properly put on and take off a mask, you also need to be careful not to touch the front of the mask when removing it, the CDC warns. Instead of touching the mask itself, remove the mask by holding the ear loops or ties. Once it's off, you can put the face mask in a ziplock bag or separate containment area, Sorrell said. “The idea is then you're preventing it from contaminating other surfaces and you're not playing around with it as it hangs around your neck.”

Remember to wash your hands before and after you put a face mask on or take it off, medical experts advise.

**MISTAKE 3: Your mask hangs too loosely on your face.**

When worn properly, N95 respirators that doctors use are closely fitted to the face. But if you are using a surgical mask or a homemade cloth mask, you may be letting the sides gap loosely.

You don't want the mask to billow out this way. Sorrell said the goal is to create a barrier that blocks out as much air as possible. “You are not going to get a perfect seal with a surgical mask or with a homemade mask, but you want to make sure it fits properly,” Sorrell said. “It needs to be comfortable so that you'll wear it, but secure enough that it doesn't slide down.”
