"Reasons to Fall in Love with Him" (Part 2)

To know God is to find release from the crippling effects of feeling unloved. Twice the Apostle John categorically stated that God is love (**1 John 4:8,16**). Love is one of the warmest words in the English language, and that God is love is one of the most sublime, uplifting, and reassuring truths known to mankind. Love is His nature. It is not merely a friendly attitude He projects. It is the essence of His being. He is always going to act toward us in love because He cannot do otherwise. Love is the way He is.

No one attribute of God is any more important than any other, and all His attributes are expressed in conjunction with each other. Yet, some believe that love may be the most powerful motivating force in all of God's being. It deeply affects everything else God is and all that He does. Knowing God's love could well be the believer's key to a well-balanced, satisfying life of peace, productivity, and power. It would be rather presumptuous to assume that we can exhaust the subject of God's love in this article but let us try to scratch the surface and begin to explore this fathomless truth. Here are eight characteristics of God's love.

1. **God's Love Is Self-Giving**

Love involves action. It is expressed in the giving of oneself for the good of another, so it always demands an object. Whenever we talk about love we are suggesting that there is more than one person involved. There must be at least two—the one who loves and the one who is loved.

Prayer Request

Confess *your* faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“Are You Wearing Your Mask Correctly?”

Submitted by: Beatrice Ramsey

MISTAKE 3: Your mask hangs too loosely on your face.

When worn properly, N95 respirators that doctors use are closely fitted to the face. But if you are using a surgical mask or a homemade cloth mask, you may be letting the sides gap loosely.

You don't want the mask to billow out this way. Sorrell said the goal is to create a barrier that blocks out as much air as possible. “You are not going to get a perfect seal with a surgical mask or with a homemade mask, but you want to make sure it fits properly,” Sorrell said. “It needs to be comfortable so that you'll wear it, but secure enough that it doesn't slide down.”

“With surgical masks, there tends to be a little bit of gap on the sides,” Russo said. “People need to do the best they can to tighten up that space with the straps.”

Russo also noted that beards can prevent masks from fitting closely, and recommended that people with them at least trim their beards close to their faces. “The bigger, the fluffier the beard is, the mask is going to lose its optimal functionality as well,” he said.

MISTAKE 4: Your face mask covers only the tip of your nose.

It's key to put your mask on the bridge of your nose, not at the end of it, so that you can create the best seal you can with the mask you have.
