"Reasons to Fall in Love with Him" (Part 5)

It was no less of a sacrifice for God the Son than it was for God the Father. His willingness to offer Himself was the summit of sacrificial love. Paul called Him "the Son of God, who loved me, and delivered Himself up for me" (**Galatians 2:20**). When the same apostle outlined God's principles for harmonious marital relationships, he said, "Husbands, love your wives, just as Christ also loved the church and gave Himself up for her" (**Ephesians 5:25**). Jesus Christ made the supreme sacrifice for us when He died in our place. He was falsely accused, beaten, spit on, crowned with thorns, nailed to a cross, and left to die the most excruciating death known to man. The infinite curse of sin's penalty, the Father's just punishment for the whole world's guilt, was laid on Him as He hung on that cross. He possessed the power to walk away from it unscathed, yet He voluntarily stayed there and bore that suffering for us. There simply is no greater love (**John 15:13**).

Whenever we are tempted to think that nobody loves us, we need to think of the cross. Jesus bore that shame and suffering because He loves us. He values us so highly that He was willing to make the ultimate sacrifice to secure for us eternal joy. That is the epitome of love. Knowing Him intimately will motivate us to make some sacrifices for the good of others—for our spouses, our children, and other members of the body of Christ. It will help us give up what we want in order to minister to their needs.

Prayer Request

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

Sick and Shut-In

HealthCare Ministry (Part 2)

“COVID-19: Aerosols Versus Respiratory Droplets Explained”

Submitted by: Beatrice Ramsey

Dr. Donald K. Milton, an environmental health professor at the University of Maryland, states “Aerosols are droplets that are suspended in air and float on air currents for many seconds to many minutes and more.

[Respiratory] drops land on you and have a small probability of hitting a vulnerable target such as your eye. Aerosols can be inhaled if they float into your breathing zone.”

While scientists agree that COVID-19 is airborne, groups like the CDC and World Health Organization have been slow to outline specific guidelines for mitigating risk. On September 21, the CDC added an update to its COVID-19 pages, noting that the virus can spread through aerosols, but removed it shortly after, writing that the organization is “updating its recommendations regarding airborne transmission.” The page notes that once the process is complete, the new language will be posted. The WHO, which has also posted specific guidance, detailed the difference between the two in a scientific brief dated March 29. In it, droplet transmission is described as occurring “when a person is in close contact (within 1 m/3 ft) with someone who has respiratory symptoms (e.g., coughing or sneezing) and is therefore at risk of having his/her mucosae (mouth and nose) or conjunctiva (eyes) exposed to potentially infective respiratory droplets.”

ALL SERVICES AT THE BUILDING HAVE BEEN SUSPENDED UNTIL FURTHER NOTICE

Weekly Contributions &

WE WILL GLADLY ACCEPT YOUR WEEKLY CONTRIBUTIONS:

1. ONLINE AT www.lcccmiami.org (PayPal).
2. MAIL YOUR CONTRIBUTIONS TO LIBERTY CITY CHURCH OF CHRIST, P. O. BOX 680308, MIAMI, FL 33168
3. USE THE CHURCH’S MAIL SLOT (in the front of the building), **OR**
4. BRING YOUR CONTRIBUTIONS TO THE BUILDING WHEN YOU PICK UP YOUR COMMUNION. SOMEONE WILL BE AT THE BUILDING **EACH SATURDAY FROM NOON UNTIL 2:00PM**
