"In Search of Wisdom" (Part 12)

From the Minister's Desk

Again in Proverbs chapter 1 Wisdom calls (vv. 20-21). Some listen (v. 33). Some don't (vv. 21-32).

When writing to the young men who were being educated for leadership, Solomon told them that wisdom was essential for their future hope. Was this the kind of wisdom that they could reproduce on a test? The kind of wisdom that they could recite in front of an audience? No – that's a better description of information than wisdom. Leadership without wisdom will do more harm than good. As much as students prepare for leadership, there is no textbook that will give them a technical answer to every difficult situation they will face. Still, Solomon instructs: "Know also that wisdom is sweet to your soul; if you find it, there is a future hope for you, and your hope will not be cut off" (Proverbs 24:14). I think of all the mistakes I have made in this life and sad to say am still prone to mistakes. One author put it this way. "Of course, the Bible does not answer every question about life. Every fork in the road does not have a Biblical arrow. We have need of wisdom in ourselves to know the path of lasting joy. But that, too, is a gift of Scripture. "The law of the Lord is perfect...making wise the simple...the precepts of the Lord are right, giving joy to the heart" (Psalm 19:7-8, 119:98). People whose minds are saturated with God's Word and submissive to his thoughts have a wisdom that in eternity will prove superior to all the secular wisdom in the world. "Blessed is the man who finds wisdom, the man who gains understanding" (Proverbs 3:13)

Our culture is fat on information but thin on wisdom. Godly leaders must know how to take the raw material of knowledge and refine it into wisdom, turning crude data into high-octane wisdom. Wisdom perseveres; it lasts beyond all the currents of culture, beyond the fashions of the day. Wisdom seeks that which will last and is willing to trade immediate gratification for an eternal reward. Failure to acknowledge this will result in leaders who carelessly spend their lives constructing a house of cards.

“Strokes, heart attacks, sudden deaths: Does America understand the long-term risks of catching COVID?”

Submitted by: **Beatrice Ramsey**

Is COVID the reason? In a study that included patients from the initial wave of the pandemic, scientists from the University of Florida found that survivors of severe COVID-19 had two-and-a-half times the risk of dying in the year following illness compared to people who were never infected. Of note, nearly 80% of downstream deaths were not due to typical COVID complications like acute respiratory distress or cardiac causes. “The results suggest that a severe impact of COVID-19 exists beyond the cost and suffering of the initial hospitalization,” says Arch Mainous, one of the study’s authors.

How vaccinated patients have fared

In a huge analysis of more than 30,000 vaccinated patients who had experienced COVID breakthrough infections (pre-Omicron), scientists found that six months later, even the vaccinated incurred a higher risk of death and debilitating long COVID symptoms involving multiple organs (the lungs, heart, kidney, brain, and others) when compared to controls without evidence of SARS-CoV-2 infection. Even the fittest are not immune. Researchers have noted a troubling pattern of sudden cardiac death in athletes in the wake of the pandemic, owing possibly to COVID-related heart complications—myocarditis and pericarditis. The Arizona Cardinals football lineman J.J. Watt recently disclosed that he had an episode of atrial fibrillation and while there are many possible causes of AFib, it’s notable that Watt was diagnosed with COVID-19 just about six weeks prior. Atrial fibrillation has long been associated with COVID

Confess *your* faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**
