### "Reasons to Fall in Love with Him" (Part 8)

There is no human reason for His love for Israel. They were a rebellious, stiff-necked people. But He loved them simply because He loved them.

That is how it is with you and me. He loves us just because He loves us. Nothing we ever did made Him love us, so nothing we ever do will make Him stop loving us. He loves us when we're grouchy just as much as when we're glad. He loves us when we sin just as much as when we don't. He loves us when we open our mouths and say things we know we shouldn't have said. He loves us when our wives or husbands or parents or children are not treating us as though they love us. He loves us when we're feeling as though nobody in the whole world loves us. He loves us even when we don't like ourselves. He never stops loving us.

#### 4. God's Love Is Eternal

This message also was given originally to the nation Israel, but its application is for every true child of God.

The LORD appeared to him from afar, saying, I have loved you with an everlasting love;

Therefore I have drawn you with lovingkindness (**Jeremiah 31:3**).

That everlasting love reaches into eternity past. He knew us and loved us before He made us, when we were but a thought in His mind. And He will love us for eternity to come, for, as Paul assured us, nothing shall be able to separate us from the love of God (**Romans 8:39**).

## Prayer Request

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

#### “COVID-19: Aerosols Versus Respiratory Droplets Explained”

Submitted by: Beatrice Ramsey

Shelly Miller urges individuals to also be cognizant of other factors: “not spending too much time in a space where you share the air with many others that may be asymptomatic and infected, wearing a mask indoors, observing whether there are windows open, or there seems to be enough ventilation (not hot or stuffy), ensuring occupancy is low and everyone is social distancing indoors.”

Milton agrees, “Masks and keeping physical distance are the first lines of defense,” he says. “The farther away someone is, the less likely that their exhaled breath will get into your breathing zone and be inhaled. For more protection against aerosols from people farther away, ventilation is important to remove infectious particles in the air. Ventilation prevents these particles/droplets from building up to dangerous levels indoors.”

Diseases like tuberculosis, chicken pox and measles have been deemed transmissible through aerosols. Japan had been operating for months on the assumption that tiny, aerosolized particles in crowded settings were fueling the spread of the coronavirus. Back in February, Japan adopted a strategy to fight airborne transmission of COVID-19 by telling residents to avoid “the three Cs” - cramped spaces, crowded areas and close conversation.

### “OUR HEARTFELT SYMPATHIES”

Our sincere condolences are extended to the **Bradley and Doss's Families** for the loss of **Oscar's niece, Loretha Bradley**. Words cannot express our sadness. May the comfort of God help you through this difficult time.

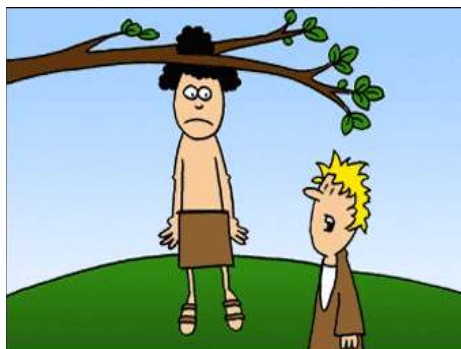

Our deepest sympathies are extended to **Simmons Family** for the loss of **James's sister, Dorothy Simmons**. May God who knows your sorrow- bring peace, comfort, and healing to your souls.

Our deepest condolences are extended to the **Williams and Madison's Families** for the loss of your loved one, **Todd Williams**. You are in our thoughts and prayers. May God grant you peace and comfort.
