Grown and Evangelizing (Part 1)

Submitted by: Eric W. Doss

The subject of Evangelism is often foreign and distant with many who name the name of Christ, but one of the signs of being a Mature Saint is witnessing and encouraging others by sharing the Gospel with others. Paul from the Philippiian letter gives us some insight that is helpful in bringing others to Christ, let's look and see.

Now I want you to know, brothers, that what has happened to me has really served to advance the gospel. As a result, it has become clear throughout the whole palace guard and to everyone else that I am in chains for Christ. Because of my chains, most of the brothers in the Lord have been encouraged to speak the word of God more courageously and fearlessly. It is true that some preach Christ out of envy and rivalry, but others out of goodwill. The latter do so in love, knowing that I am put here for the defense of the gospel. The former preach Christ out of selfish ambition, not sincerely, supposing that they can stir up trouble for me while I am in chains. But what does it matter? The important thing is that in every way, whether from false motives or true, Christ is preached. And because of this I rejoice.

“COVID: The Threat in Perspective”- (Part3)

Submitted by: Beatrice Ramsey

3. Expand rapid testing

If rapid Covid tests were widely available, as they have been in much of Western Europe, they could help protect the elderly.

In a previous newsletter, I mentioned a woman in Germany who greeted visitors with a stash of rapid tests — allowing her husband, who has Parkinson’s disease, to stay safe and still have a social life. Imagine if American families could do the same. Grandma and grandpa are coming over for Sunday dinner? Everybody else takes a rapid test before they arrive.

The Biden administration has promised to make rapid tests widely available this fall. For now, they are still difficult to find, largely because the F.D.A. has been slow to approve them.

For most Americans, vaccination makes the risk of a serious form of Covid extremely rare. And for children, Covid tends to be mild even without vaccination. But until caseloads decline more, the situation remains frightening for many older people.
