Grown and Evangelizing (Part 2)

Submitted by: Eric W. Doss

What are characteristics of a mature witness for Christ—a mature evangelist?

As we look at **Philippians 1:12-18**, we see Paul's description of the gospel being spread throughout Rome while he was imprisoned there. Paul had earlier stated his desire to preach in Rome (**Romans 1:11-12**). It was the most influential city in the world, and by reaching Rome, he would affect the entire world. However, he probably never thought he would reach Rome through imprisonment. At this point in Paul's ministry, he had already been imprisoned for two years in Caesarea for preaching the gospel, and he was to be in prison for two more years in Rome. He was under house arrest with a Roman guard chained to him twenty-four hours a day. Yet, while there he says, "all that has happened has really served to advance the gospel" (v. 12). The word "advance" has the meaning of a pioneer advance. It was a military term used of an army advance; the army would go before everybody to clear the way into new territory.¹ While in prison, God used Paul to break new territory for the gospel, and others were following. Here we see the ministry of a mature witness—a mature evangelist—who all of us can learn from.

Prayer Request

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

“6 Places You’re Most Likely to Catch Coronavirus” (Pt. 1)

Submitted by: Beatrice Ramsey

Life isn’t back to normal yet. As the Delta variant continues to spread, the experts recommend being particularly cautious at these hot spots for infections.

Just when you thought it was safe to forgo your mask and start getting back to normal, **COVID-19** rates are once again on the rise and hospitals are starting to fill up as the highly contagious Delta variant spreads across the country. The Delta variant is more than two times as contagious as previous variants, according to the CDC, and data suggests that the unvaccinated are at particularly high risk for severe infection and hospitalization from this strain, although breakthrough infections can and do occur among the fully vaccinated.

“**COVID-19** is spread by respiratory droplets in the air, but Delta doesn’t require as many droplets to spread, so it is more airborne,” explains Len Horovitz, MD, a pulmonary specialist with Lenox Hill Hospital in New York City. For this reason, the CDC recommends wearing masks in public indoor places, even if you are fully vaccinated, and to get vaccinated as soon as you are able. To that end, if you still need to get your vaccination, it’s now as simple as going to Walmart, Walgreens, CVS, Publix, or Costco.
