## Grown and Evangelizing (Part 3)

Submitted by: Eric W. Doss

It must be remembered that every believer is called to be a gospel pioneer as well. We are all missionaries in whatever context God has placed us—whether that be as a student, a teacher, a businessman, or some other profession. Wherever God has placed us, he placed us there to be a witness. **Matthew 28:18-19** says,

*"Therefore, go and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, and teaching them to obey everything I have commanded you. And surely, I am with you always, to the very end of the age."*

We are all called to make disciples. We are all called to be pioneers—mature witnesses—who spread the gospel to places where people have never heard it.

## Prayer Request

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. **James 5:16**

### "6 Places You're Most Likely to Catch Coronavirus" (Pt.2)

Submitted by: Beatrice Ramsey

Some places are riskier than others to visit. In general, infection hot spots tend to be "indoor environments with limited fresh airflow, where large numbers of people can gather for longer than 10 minutes of interactions and where it is difficult to maintain physical distancing," according to Boris Lushniak, MD, Dean of the University of Maryland School of Public Health in Baltimore. When planning your future public outings, consider avoiding these everyday places where experts say infection rates remain the highest.

### Bars and Restaurants

The number one hot spot for coronavirus infections is the bar and restaurant scene, according to Dr. Lushniak. "Unfortunately, as bars have reopened, we have seen a large number of young people gathering but not necessarily being wary that COVID-19 is still a problem," he says. The data backs him up: A study in the CDC's Morbidity and Mortality Weekly Report found that adults who tested positive for COVID-19 were twice as likely to have dined at a restaurant as those who tested negative.

Even bars and restaurants that limit capacity and space tables six feet apart are high-risk environments, Dr. Lushniak says. At bars, in particular, people gather as they wait in line to get in, and most don't wear masks or socially distance. Inside, people spend hours in a small, poorly ventilated space while dancing, eating, sitting or standing close together, and talking over the music.

"Joy to the world, the Lord has gum ..."
