Grown and Evangelizing (Part 3)

Submitted by: Eric W. Doss

If we are honest, many of us would admit to struggling with witnessing. We fear being rejected. We fear being incompetent in our gospel presentation. We fear pushing people away and dishonoring our Lord.

As we look at Paul's description of the gospel ministry in Rome, the hope is that we will be inspired to become gospel pioneers as well—mature witnesses for Christ.

God is looking for gospel pioneers to break new ground in schools, businesses, and nations around the world. Will you allow God to use you to break new ground for the gospel so others can follow?

Big Question: What characteristics of a mature witness do we see in Paul's description of the gospel-ministry happening in Rome?

A Mature Witness Shares the Gospel in Every Circumstance

“6 Places You’re Most Likely to Catch Coronavirus” (Pt.3)

Submitted by: Beatrice Ramsey

1. Bars and Restaurants

Loud conversations at bars can release up to 10 times as many respiratory droplets as a cough, research shows. And those ubiquitous plastic screens between tables aren’t really much help, according to research from the Environmental Modelling Group. Unless the screens are specifically designed to work with airflow, they likely won’t reduce exposure to smaller aerosol particles that can easily travel around a screen.

At any indoor spot, Dr. Lushniak suggests taking stock of what public health recommendations are being followed. Ask yourself, “Are people wearing masks? Is the six-foot rule being applied? Is it crowded with people?” he says. It’s best to remove yourself from any situation that doesn’t abide by expert-approved safeguards. **Experts also recommend following these guidelines when dining at restaurants.**

Bars and restaurants could lose their not-so-desirable top spot on this list if they check for vaccination status among patrons, says Dr. Horovitz. “Restaurants will definitely be safer if all staff and patrons are required to show proof of vaccination, as is the case in New York City and many other cities,” he says. “[Regardless], you still should wear a mask until you sit down at the table.”

2. Gyms and fitness centers

Gyms and fitness centers are certainly still hot spots, says Dr. Horovitz.
