From the Minister's Desk

To our distinguished visitors:

We are honored to have you worship with us! We'd love to get to know you better, share our mission and vision as a church and explore how you can become a part of our family.

If you, any member of your family or friends you know of are interested in becoming a member of the Liberty City Church of Christ, please contact any member of the Liberty City Church of Christ and they will direct your request to our Evangelism Ministry Leaders or you may call our Evangelist directly, Eric W. Love gives us memories. Faith gives us strength. Our hearts and prayers are with our bereaved sisters and brothers in Christ. Praying for peace and comfort to everyone impacted by loss. Our deepest heart-felt sympathy

Our thoughts and prayers are with those in their times of mourning.

God didn't promise days without pain, laughter without sorrow or sunshine without rain. But He did promise strength for the day and light for the way.

Gastroenteritis

Submitted by: **Beatrice Ramsey**

Gastroenteritis is an infection, occurring after eating or drinking contaminated food and water. You may also obtain this disease, when you share utensils, towels or food with someone who has this illness. It is spread from your stomach into your intestines, causing symptoms. Whenever this occurs, the immune system sends inflammatory cells to fight the infection and repair injured tissues. Symptoms include, diarrhea, nausea, vomiting, stomach pain and fever. This disease can affect anyone, including infants and children. Everyone at some point in their life, have experienced stomach problems after eating or drinking something that upset their digestive system.

GOOD TO KNOW: The most common causes are viruses, bacteria, fungi or parasites. The other causes are your toxic chemicals, which can contaminate the food and water sources. You can also get it from heavy doses of alcohol / drugs and some medications – know your side effects. Symptoms usually appear several hours or within a day after becoming infected. Depending on the length of time and severity of illness, remember to contact your doctor.
