

April 28, 2024 Vol. 17
Senior Minister, Evangelist Eric W. Doss

MISSION: "To proclaim and teach the message of Jesus Christ, live for God, love one another and minister faithfully to people."

MEMORY VERSES: "God is our refuge and strength, a very present help in trouble." **Psalms 46:1**
"Humble yourselves therefore under the mighty hand of God, that He may exalt you in due time: Casting all your care upon Him; for He careth for you." **1 Peter 5:6 & 7**

MOTTO: GOD LOVES YOU AND WE LOVE YOU TOO!

April's Monthly Theme: (Mission Minded)

From the Minister's Desk

To our distinguished visitors:

We are honored to have you worship with us! We'd love to get to know you better, share our mission and vision as a church and explore how you can become a part of our family.

If you, any member of your family or friends you know of are interested in becoming a member of the Liberty City Church of Christ, please contact any member of the Liberty City Church of Christ and they will direct your request to our Evangelism Ministry Leaders or you may call our Evangelist directly, Eric W. Doss (786) 491-5072

We are regular people from all walks of life. We are imperfect. We have strengths and weaknesses. But we love a perfect God, who sent the greatest example, Jesus Christ, and we want to spend eternity with Him.

We hope you will join us on this journey.

Love gives us memories. Faith gives us strength. Our hearts and prayers are with our bereaved sisters and brothers in Christ. Praying for peace and comfort to everyone impacted by loss. Our deepest heart-felt sympathy

Our thoughts and prayers are with those in their times of mourning.

God didn't promise days without pain, laughter without sorrow or sunshine without rain. But He did promise strength for the day and light for the way.

Gallbladder Diseases

Submitted by: Beatrice Ramsey

The body is remarkable with a 24-hours working team. Each normal movement is right on target. However, illnesses that are mental or physical will disrupt the normal activities of daily living. Today we will focus our attention on gallbladder diseases. The gallbladder is a store place for bile, a liquid that is made and released by the liver for nutrients absorption. Bile breaks down fats that are eaten into fatty acids, making it easy for absorption into the body's lower digestion system. **GOOD TO KNOW:** bile contains mostly cholesterol; all the body needs for a normal digestive system.

Gallstones Disease: Is the most common disease affecting the biliary system. They are solid, pebble – like masses that form inside the gallbladder or in the beginning of the small intestine. There are two types of gallstones, 1) cholesterol – the most common type, account for 80% of gallstones. They are yellowish green causing yellowish skin color. 2) pigment stones maybe black or brown and develop in patients with cirrhosis or biliary tract infections. The main symptom of gallstone disease is abdominal pain in the right upper side, aggravated by meals containing fatty foods. Cholecystitis – inflammation of the gallbladder is cause by the gallstones blocking the passage way, preventing bile from entering the small intestine to complete food digestion.
