July 21, 2024 Vol. 30
Senior Minister, Evangelist Eric W. Doss

MISSION: "To proclaim and teach the message of Jesus Christ, live for God, love one another and minister faithfully to people."

MEMORY VERSES: "God is our refuge and strength, a very present help in trouble." **Psalms 46:1**
"Humble yourselves therefore under the mighty hand of God, that He may exalt you in due time: Casting all your care upon Him; for He careth for you." **1 Peter 5:6 & 7**

MOTTO: GOD LOVES YOU AND WE LOVE YOU TOO!

JULY (FAMILY MATTERS)

From the Minister's Desk

To our distinguished visitors:

We are honored to have you worship with us! We'd love to get to know you better, share our mission and vision as a church and explore how you can become a part of our family.

If you, any member of your family or friends you know of are interested in becoming a member of the Liberty City Church of Christ, please contact any member of the Liberty City Church of Christ and they will direct your request to our Evangelism Ministry Leaders or you may call our Evangelist directly, Eric W. Doss (786) 491-5072

We are regular people from all walks of life. We are imperfect. We have strengths and weaknesses. But we love a perfect God, who sent the greatest example, Jesus Christ, and we want to spend eternity with Him.

We hope you will join us on this journey.

Love gives us memories. Faith gives us strength. Our hearts and prayers are with our bereaved sisters and brothers in Christ. Praying for peace and comfort to everyone impacted by loss. Our deepest heart-felt sympathy

Our thoughts and prayers are with those in their times of mourning.

HYPERTENSION

Submitted by: Beatrice Ramsey

Hypertension (high blood pressure) is a long-term condition where high pressure forces the heart to work harder, pumping blood out of the heart to the rest of the body. Continuation of this act will cause the left ventricle, to thicken and become enlarge, resulting in severe heart, brain, kidney, eyes, legs, hips and stomach problems. Left untreated, hypertension will become fatal. However, many people with hypertension don't notice symptoms and may be unaware they have this illness. When symptoms do occur, they can include: early morning headaches, nosebleeds, irregular heart rhythms and vision changes. Lifestyle habits can contribute to hypertension, including eating unhealthy foods – high in salt and low in potassium, drinking too much alcohol or caffeine, poor physical activity, poor sleeping habits and repeatedly experiencing high stress situations.

Unfortunately, the incidence of hypertension is increasing at an alarming rate of 1 in every 4 men and 1 in every 5 women. The normal book value is 120 over 80. However, everyone's blood pressure is not the same. What is normal for them, maybe different from the book value. Work with your doctor to control your blood pressure. *Next week Hypotension*
