July 28, 2024 Vol. 31
Senior Minister, Evangelist Eric W. Doss

MISSION: "To proclaim and teach the message of Jesus Christ, live for God, love one another and minister faithfully to people."

MEMORY VERSES: "God is our refuge and strength, a very present help in trouble." **Psalms 46:1**
"Humble yourselves therefore under the mighty hand of God, that He may exalt you in due time: Casting all your care upon Him; for He careth for you." **1 Peter 5:6 & 7**

MOTTO: GOD LOVES YOU AND WE LOVE YOU TOO!

August (Still Have Joy)

From the Minister's Desk

To our distinguished visitors:

We are honored to have you worship with us! We'd love to get to know you better, share our mission and vision as a church and explore how you can become a part of our family.

If you, any member of your family or friends you know of are interested in becoming a member of the Liberty City Church of Christ, please contact any member of the Liberty City Church of Christ and they will direct your request to our Evangelism Ministry Leaders or you may call our Evangelist directly, Eric W. Doss (786) 491-5072

We are regular people from all walks of life. We are imperfect. We have strengths and weaknesses. But we love a perfect God, who sent the greatest example, Jesus Christ, and we want to spend eternity with Him.

We hope you will join us on this journey.

Love gives us memories. Faith gives us strength. Our hearts and prayers are with our bereaved sisters and brothers in Christ. Praying for peace and comfort to everyone impacted by loss. Our deepest heart-felt sympathy

Our thoughts and prayers are with those in their times of mourning.

Hypotension

Submitted by: Beatrice Ramsey

Hypotension (low blood pressure) is a condition where the pressure of blood circulating through the body is lower than normal. This means the heart, brain and other parts of the body may not get enough blood, decreasing needed oxygen and nutrients for activities of daily living. 90/60 is the book value for hypotension. Low blood pressure can be life – threatening. Usually, your body can automatically control your blood pressure and keep it from dropping too much. If it starts to drop, your body tries to make up for that, either by speeding up your heart rate – pumping out blood faster. Another way is constricting blood vessels, making them narrower causing increase pressure inside the blood vessels. **Remember:** your blood pressure ‘naturally’ changes during the day, from the effect of your physical and mental activities. If you stand up suddenly, it may drop, and it also lowers when you’re resting or sleeping.

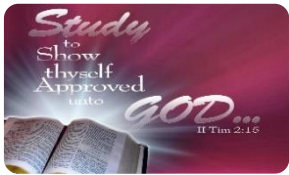

*Causes: Any type of blood loss, dehydration, emotional stress, fear, pain, certain medications for high blood pressure, diuretics, heart, mental disorders and infections. **Symptoms:** Dizziness, blurred vision, confusion, fainting, weakness, feeling of thirsty, nausea, difficult breathing notify your doctor immediately.*

JOY

Joy is the settled assurance that God is in control of all the details of my life,

the quiet confidence that ultimately everything is going to be alright,

and the determined choice to praise God in every situation.
