(Safe In His Arms)

From the Minister's Desk

To our distinguished visitors:

We are honored to have you worship with us! We'd love to get to know you better, share our mission and vision as a church and explore how you can become a part of our family.

If you, any member of your family or friends you know of are interested in becoming a member of the Liberty City Church of Christ, please contact any member of the Liberty City Church of Christ and they will direct your request to our Evangelism Ministry Leaders or you may call our Evangelist directly, Eric W. Doss (786) 491-5072

We are regular people from all walks of life. We are imperfect. We have strengths and weaknesses. But we love a perfect God, who sent the greatest example, Jesus Christ, and we want to spend eternity with Him. We hope you will join us on this journey.

### Blood Cancers ---- Part 1

Submitted by: **Beatrice Ramsey**

Blood cancers are tumors that affect the blood, bone marrow and the lymphatic system. When cancer occurs in the blood, it's usually the result of an abnormal and excessive reproduction of white blood cells. Blood cancers accord for 10 percent of all diagnosed cancers in America each year. **LEUKEMIA:** involves the white blood cells, your infection fighters. They normally grow and divide in an orderly way, as your body needs them. But in people with leukemia, the bone marrow produces an excessive amount of abnormal white blood cells, which don't function properly. Leukemia can be classified as chronic (slow growing) or acute (fast growing).

Multiple myeloma, another cancer of the blood occurs when abnormal plasma cells a form of white blood cells, build up in the bone marrow and form a tumor. Normally healthy plasma cells produce and release protein antibodies to attack and eliminate germs, when needed.

**DID YOU KNOW:** men are more likely to develop this disease than women and Afro-American are twice as likely to develop this disease than Caucasians.

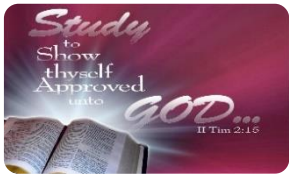

Next week part 2 – Lymphoma and symptoms

The power of prayer  
 cannot be explained,

but the power of  
 prayer can be  
 'experienced'.

Doctors can try  
 to treat you  
 but you need  
 God....  
 ... to cure you
