October  
(Safe In His Arms)

From the Minister's Desk

To our distinguished visitors:

We are honored to have you worship with us! We'd love to get to know you better, share our mission and vision as a church and explore how you can become a part of our family.

If you, any member of your family or friends you know of are interested in becoming a member of the Liberty City Church of Christ, please contact any member of the Liberty City Church of Christ and they will direct your request to our Evangelism Ministry Leaders or you may call our Evangelist directly, Eric W. Doss (786) 491-5072

We are regular people from all walks of life. We are imperfect. We have strengths and weaknesses. But we love a perfect God, who sent the greatest example, Jesus Christ, and we want to spend eternity with Him. We hope you will join us on this journey.

### **Blood Cancers ---- Part 2**

**Submitted by: Beatrice Ramsey**

Last week we discussed two types of blood cancerous diseases, Leukemia and Multiple Myeloma. Today's healthcare discussion will include information on Lymphomas. They occur when the DNA in blood cells is damaged, causing the cells to multiply abnormally, preventing white blood cells from performing their normal function (infection – fighters). There are several types of lymphoma, we will discuss the two major types and their differences. Hodgkin Lymphoma usually is the painless swelling of the lymph nodes located in the armpit, neck, and chest areas. However, some people will experience pain in affected lymph nodes after drinking alcoholic beverages. Hodgkin Lymphoma is more curable because it only affects certain areas of the body. Non – Hodgkin Lymphoma spreads to larger areas of the body's lymph nodes, liver, spleen, and stomach. These areas are very painful with longer recovery time, depending on the severity of the cancer.

*Symptoms includes: night sweats, weight loss, vulnerable for infection with poor healing, feeling tired, weak, difficult breathing, intense skin itching with scaly or rough patches. Contact your doctor when these symptoms occur unrelieved.*
