November 24, 2024 Vol. 48
Senior Minister, Evangelist Eric W. Doss

MISSION: "To proclaim and teach the message of Jesus Christ, live for God, love one another and minister faithfully to people."

MEMORY VERSES: "God is our refuge and strength, a very present help in trouble." **Psalms 46:1**
"Humble yourselves therefore under the mighty hand of God, that He may exalt you in due time: Casting all your care upon Him; for He careth for you." **1 Peter 5:6 & 7**

MOTTO: GOD LOVES YOU AND WE LOVE YOU TOO!

November
(Each One Bring One)

From the Minister's Desk

To our distinguished visitors:

We are honored to have you worship with us! We'd love to get to know you better, share our mission and vision as a church and explore how you can become a part of our family.

If you, any member of your family or friends you know of are interested in becoming a member of the Liberty City Church of Christ, please contact any member of the Liberty City Church of Christ and they will direct your request to our Evangelism Ministry Leaders or you may call our Evangelist directly, Eric W. Doss (786) 491-5072

We are regular people from all walks of life. We are imperfect. We have strengths and weaknesses. But we love a perfect God, who sent the greatest example, Jesus Christ, and we want to spend eternity with Him. We hope you will join us on this journey.

Dietary Supplements – Part 2

Submitted by: Beatrice Ramsey

There are 8 different B vitamins. They are all water soluble, which means they are not stored by your body. You must eat them daily for the best effects. However, there is one exception – excessive amounts of vitamin B-12 is stored in the liver. Vitamin B-1 helps convert the food eaten into energy for cellular activities. Also, it is important for adequate nerve cell functions. Vitamin B-2 is needed for energy production and to make sure the other B vitamins are doing their jobs. Vitamin B-3 is one of the ingredients in skin care products, helping with anti – aging effects, clears up eczema and acne. Vitamin B-5 helps to build and break down fatty acids. It is a popular ingredient for some skin and hair care products. Vitamin B 6 is probable one of the most famous B vitamins. It helps to maintain correct levels of amino acid, which your body naturally produces. But too much of it can lead to things like blood clots, hardened arteries, heart attacks and nerve damage. Vitamin B 9 (folate) is critical for proper formation of the neural tube (the structure that forms the early brain and spine in a developing fetus). Low folate can raise a risk for birth defects. Vitamin B 12 helps with the production of red blood cells and DNA. Also is important with helping maintain organs and brain functions.
