TO OUR DISTINGUISHED VISITORS

We are honored to have you worship with us! It's our joy to get to know you better, share the mission and vision of our church, and explore how you can become a part of our growing family.

If you, any member of your family, or friends you know are interested in becoming a member of Liberty City Church of Christ, please reach out to any member of our church, and they will direct your request to our Evangelism Ministry Leaders.

Alternatively, you can reach me directly at (786) 491-5072.

We are regular people from all walks of life—imperfect with strengths and weaknesses. But we serve a perfect God who sent the greatest example, Jesus Christ, and we desire to spend eternity with Him.

We invite you to join us on this transformative journey!

-Evangelist, Eric W. Doss

EVANGELIST ERIC W. DOSS, MFT

A licensed Prepare & Enrich Marriage Consultant. Has preached across the country and on foreign soil conducting meetings, workshops, lectures, symposiums, and conferences. Has been a cherished shepherd with embodying unwavering commitment and leadership

Air Pollution Awareness

Air pollution is the contamination of indoor and outdoor environmental fumes that interferes with natural clean air. Fumes are smoke like chemical or physical substances inhaled during breathing. They are harmful if not eliminated, such as fumes from moving vehicles, industrial fumes, household chemicals and can sprays. **Good to know:** particle pollution is a type of air pollutant, made up of tiny particles (*30 times smaller than the diameter of human hair*) suspended in the air. It's one of the main components of wildfire smoke, mixed with other gases from burning vegetation, buildings and other materials.

These inhalable particles can get deep into the lungs and blood stream, travel to other organs, where they can cause severe damage. Can you imagine the amount of fumes we breathe in daily, decreasing normal inhalation of oxygen consumption? **Remember**, the invisible gaseous substances surrounding the earth, is a mixture of oxygen and nitrogen. These two gases is necessary for normal healthy breathing. The purpose of oxygen is crucial for all life on earth. It allows cells to function properly and carry out vital process like energy production, growth and cellular reproduction. Without pure oxygen, cells cannot produce energy and life can't be sustained.

Intersection of
Growing & Up

Man can create
a million
different laws.
But until we
follow the TEN
God gave us.
Nothing will
change.

Every storm is not
a test from God.
Some storms are
from the choices
you made.
