TO OUR DISTINGUISHED VISITORS

We are honored to have you worship with us! It's our joy to get to know you better, share the mission and vision of our church, and explore how you can become a part of our growing family.

If you, any member of your family, or friends you know are interested in becoming a member of Liberty City Church of Christ, please reach out to any member of our church, and they will direct your request to our Evangelism Ministry Leaders. Alternatively, you can reach me directly at (786) 491-5072.

We are regular people from all walks of life—imperfect with strengths and weaknesses. But we serve a perfect God who sent the greatest example, Jesus Christ, and we desire to spend eternity with Him.

We invite you to join us on this transformative journey!

-Evangelist, Eric W. Doss

EVANGELIST ERIC W. DOSS, MFT

A licensed Prepare & Enrich Marriage Consultant. Has preached across the country and on foreign soil conducting meetings, workshops, lectures, symposiums, and conferences. Has been a cherished shepherd with embodying unwavering commitment and leadership

Cold Winter Illnesses

This is the season for sharing cold germs, flu viruses, stomach bugs and more. Cold weather months capture that magical time when your sneezy co-worker insist on coming in for a meeting instead of staying home.

Remember, when you catch a winter illness, symptoms don't always pop up right away. It could take up to a few days or a week for symptoms to appear.

By the time you start showing cold or flu symptoms, you probably had given the germ or virus to at least one other person. This depends on which germ or virus you had contacted and the strength of your immune system. Good to know: You are usually most contagious two to three days after you are infected. However, you can infect others for two weeks or longer while recovering from a common cold or flu. Understand, you are contagious during the entire period of ALL symptoms, until they ALL disappear. Flu season runs from October to May, but it's possible to be infected with this virus anytime of the year.

Notify your doctor, if you have a fever above 102 F, difficult breathing, wheezing, coughing, chest/throat/head pains, uncontrolled nasal congestion, severe weakness, dark discolored urine and dizziness.

When a train goes through a tunnel and it gets dark, you don't throw away the ticket and jump off. You sit still and trust the engineer. Trust God today no matter how dark your situation. God says, "You are coming out!"
