TO OUR DISTINGUISHED VISITORS

We are honored to have you worship with us! It's our joy to get to know you better, share the mission and vision of our church, and explore how you can become a part of our growing family.

If you, any member of your family, or friends you know are interested in becoming a member of Liberty City Church of Christ, please reach out to any member of our church, and they will direct your request to our Evangelism Ministry Leaders.

Alternatively, you can reach me directly at (786) 491-5072.

We are regular people from all walks of life—imperfect with strengths and weaknesses. But we serve a perfect God who sent the greatest example, Jesus Christ, and we desire to spend eternity with Him.

We invite you to join us on this transformative journey!

How Stress Affects The Heart

When it comes to stress, everyone is different and the same is true with heart disease. Stress hormones cause the heart to beat faster, pumping out a large amount of blood. When this happens, you have a serious problem. Immediately, to correct this problem before it becomes out of control, the blood vessels become narrow causing high blood pressure and sometimes blood clots. However, when stress goes away, blood pressure sometimes return to what it was before stress. But stress elimination, may not lower blood pressure in everyone. Good To Know: short spikes in blood pressure can cause heart attacks,

strokes, damage blood vessels and damage kidneys. This particular damage, is like damage from long – term high blood pressure, depending on the individual present health status.

Daily stressors (finances, family matters, work related problems and health problems) put adults at greater risk for heart disease. **Remember**, during your doctor’s visit, talk about stress, although you may not have any symptoms. Your doctor can give you helpful recommendations on prevention of heart disease.
