A licensed Prepare & Enrich Marriage Consultant. Has preached across the country and on foreign soil conducting meetings, workshops, lectures, symposiums, and conferences. Has been a cherished shepherd with embodying unwavering commitment and leadership

## TO OUR DISTINGUISHED VISITORS

We are honored to have you worship with us! It's our joy to get to know you better, share the mission and vision of our church, and explore how you can become a part of our growing family.

If you, any member of your family, or friends you know are interested in becoming a member of Liberty City Church of Christ, please reach out to any member of our church, and they will direct your request to our Evangelism Ministry Leaders.

Alternatively, you can reach me directly at (786) 491-5072.

We are regular people from all walks of life—imperfect with strengths and weaknesses. But we serve a perfect God who sent the greatest example, Jesus Christ, and we desire to spend eternity with Him.

We invite you to join us on this transformative journey!

-Evangelist, Eric W. Doss

Get Communion

# The Measles Update

The measles is a contagious infectious viral disease. However, it is vaccine preventable. Symptoms includes coughing, red eyes, high fever and skin rash. But it led to more sever health problems, such as pneumonia, brain damage from inflammation. Complications of measles can occur in anyone including healthy children and adults. Scientists have found that measles wipe out the brain's memory of bacteria and viruses. This weakens your immune system, making you more likely to get sick from other diseases. This effect can last for many years. You can get the measles by

breathing contaminated air from an infected person or touching an infected surface. The measles virus can stay in the air for several hours after an infected person coughs or sneezes. It does not require close contact with an infected person to transmit, because the disease is air borne. **Updated Facts:** Measles cases are 3 times higher this year, as vaccination rates have fallen. Already measles has spread across nine states, with the majority of cases isolated in Texas, with a report of 159 cases and one death. As of February 27, the CDC reported 164 cases, not counting Texas amount.

*Intersection of  
Growing & Up*

Sometimes we forget how blessed we are. My hot water works, I have groceries to eat, i can still afford eggs, I have clean sheets on my bed, I have family and friends that love me, and I woke up today in my right mind. If that's not blessed I don't know what is.
