A licensed Prepare & Enrich Marriage Consultant. Has preached across the country and on foreign soil conducting meetings, workshops, lectures, symposiums, and conferences. Has been a cherished shepherd with embodying unwavering commitment and leadership

TO OUR DISTINGUISHED VISITORS

We are honored to have you worship with us! It's our joy to get to know you better, share the mission and vision of our church, and explore how you can become a part of our growing family.

If you, any member of your family, or friends you know are interested in becoming a member of Liberty City Church of Christ, please reach out to any member of our church, and they will direct your request to our Evangelism Ministry Leaders.

Alternatively, you can reach me directly at (786) 491-5072.

We are regular people from all walks of life—imperfect with strengths and weaknesses. But we serve a perfect God who sent the greatest example, Jesus Christ, and we desire to spend eternity with Him.

We invite you to join us on this transformative journey!

-Evangelist, Eric W. Doss

Blood Clotting Deficiency

There is a rare blood clotting disorder called protein S deficiency, usually inherited and let your blood clot too easily. Normally, protein S helps keep other coagulation proteins from making too many blood clots. It's one of many natural anticoagulants that keep your clotting mechanism in check. When you have too little protein S, it's harder for your body to control the coagulation pathway. This can result in excessive blood clotting. When blood clots in the lungs, interferes with normal exhalation of carbon dioxide (cellular waste product) and the normal needed inhalation of fresh clean oxygen, prohibits life sustaining and must be treated immediately.

Having this deficiency puts you at other dangerous risk. Such as blood clots in your legs or arms, brain and abdomen. Remember, protein S deficiency can affect anyone who has the genetic mutation, regardless of sex. Symptoms: such as chest pains with difficult breathing, severe painful movements with swelling and skin discoloration must be reported to your doctor immediately. Other symptoms included, prolong weakness with fatigue, mood changes with mental fog, frequent hair loss and brittle nails.
