TO OUR DISTINGUISHED VISITORS

We are honored to have you worship with us! It's our joy to get to know you better, share the mission and vision of our church, and explore how you can become a part of our growing family.

If you, any member of your family, or friends you know are interested in becoming a member of Liberty City Church of Christ, please reach out to any member of our church, and they will direct your request to our Evangelism Ministry Leaders.

Alternatively, you can reach me directly at (786) 491-5072.

We are regular people from all walks of life—imperfect with strengths and weaknesses. But we serve a perfect God who sent the greatest example, Jesus Christ, and we desire to spend eternity with Him.

We invite you to join us on this transformative journey!

-Evangelist, Eric W. Doss

EVANGELIST ERIC W. DOSS, MFT

A licensed Prepare & Enrich Marriage Consultant. Has preached across the country and on foreign soil conducting meetings, workshops, lectures, symposiums, and conferences. Has been a cherished shepherd with embodying unwavering commitment and leadership

Nimbus – New COVID Variant

It is not easy to forget COVID – 19, it is still a common respiratory disease around the world. The virus continuously mutates (making errors in the copies from the original type), releasing new variants (a type of virus that differs from the original viral form, due to errors made while duplicating the original virus for reproduction). This is the reason why you have different types of COVID – 19. Viruses are unable to reproduce by themselves. These parasites are well designed to infiltrate host cells, because humans have reproductive cells. Once a virus enters into a host's body, it travels along the outer surfaces of cells until its protein virus begin to bind with receptors on the cells.

The virus and the host cells then fuse, allowing the virus's DNA or RNA to enter the host cells, where it begins to reproduce. If enough viral matter is able to penetrate host cells without being deactivated by a host's immune system or other antiviral means, infection begins severely. The latest variant is Nimbus. The health authorities are keeping an eye on this rapid spreading respiratory disease, in the United States. It has a new painful symptom you should be aware of, a severe throat problem with feelings of "razor blades" covering the throat. May 24th, Nimbus was accounted for 15% of all COVID – 19 cases and as of June 7th, Nimbus was accounted for 37% COVID – 19 cases. Stay safe with respiratory precautions.
