TO OUR DISTINGUISHED VISITORS

We are honored to have you worship with us! It's our joy to get to know you better, share the mission and vision of our church, and explore how you can become a part of our growing family.

If you, any member of your family, or friends you know are interested in becoming a member of Liberty City Church of Christ, please reach out to any member of our church, and they will direct your request to our Evangelism Ministry Leaders.

Alternatively, you can reach me directly at (786) 491-5072.

We are regular people from all walks of life—imperfect with strengths and weaknesses. But we serve a perfect God who sent the greatest example, Jesus Christ, and we desire to spend eternity with Him.

We invite you to join us on this transformative journey!

-Evangelist, Eric W. Doss

EVANGELIST ERIC W. DOSS, MFT

A licensed Prepare & Enrich Marriage Consultant. Has preached across the country and on foreign soil conducting meetings, workshops, lectures, symposiums, and conferences. Has been a cherished shepherd with embodying unwavering commitment and leadership

Bacterial Meningitis

Bacterial meningitis is inflammation or swelling of the tissue surrounding the brain and spinal cord. It is the most serious type of meningitis. This disease can interfere with normal blood flow and can cause long term complications, such as paralysis, stroke, seizures and even death. The bacteria most often responsible for bacterial meningitis are common in the environment. They can be in your nose and throat at any time without causing any harm. You may not get sick, but can still spread the bacteria to others, who would get sick. You can spread it through close contact with someone else. The bacteria is commonly spread through respiratory secretions when you are sneezing, coughing or eating / drinking and kissing with the affected person.

YES, bacterial meningitis is contagious. If you have or had this disease, you should notify everyone you had close contact. This disease can affect anyone, anywhere at any age. **GOOD TO KNOW:** A skin rash from bacterial meningitis, can appear within hours or several days, as the infection spread through the blood stream. The rash starts as pinprick – like spots and potentially develops into larger blotchy bruises. However, a rash is not a guaranteed symptom, and meningitis can be a medical emergency without a rash. Notify your doctor when symptoms occur such as uncontrolled fever, stiff painful neck, headache, flu-like symptoms, nausea and vomiting, also confusion.

GET LIT FOR CHRIST

4TH SUNDAY - SEPTEMBER 28 - 2:30PM

BASED ON **MATTHEW 5:15-16**. THE FOCUS IS ON REMINDING EVERYONE THAT AS CHRISTIANS, WE'RE **CALLED TO SHINE OUR LIGHT THROUGH OUR FAITH, LOVE, AND GOOD DEEDS** SO THAT OTHERS CAN SEE CHRIST LIVING IN US.

**Celebrate
our Youth:
Phil 4:13**

God, I pray for divine alignment in every area of my life. If it has no place, remove it. If it's out of place, shift it. If it's in place, perfect it.
